1.4 – Feedback System							
1.4.1 – Whether structured feedback re	ceived from all the stakeholders.						
Students		Yes					
Teachers		Yes					
Employers		Yes					
Alumni		Yes					
Parents		Yes					
1.4.2 – How the feedback obtained is b (maximum 500 words)	eing analyzed and utilized for overal	development of the institution?					
Feedback Obtained							
There is a formal mechanism to collect the feedback from students and other stakeholders on curriculum. At the end of the every semester feedback is obtained from students which include different criteria. The data so collected is analyzed and report is prepared which helps for external evaluation of the							

curriculum. On 110 scale feedback is taken from the students at the end of each semester on the curriculum they underwent during that semester. The feedback is taken against few parameters recommended by the NAAC/UGC. Feedback is an essential part of learning, especially when we want to improve and attain high professional standards. Students have valuable insights into classroom teaching and how it might be improved. After all no one observes us more than they do. Every year we obtain feedback from the students of our college on different criteria. In this feedback form we have the following criteria: 1.Regularity in conducting the classes 2. Punctuality 3. Subject preparation for the class 4. Presentation skills like voice, clarity and language 5. Methodology used in teaching to impart the knowledge 6. Interest generated in the subject 7.Interaction with the students in the classroom 8.Accessibility to the students outside the classroom 9. Completion of the syllabus 10. Role as a mentor Hence it enhances learning and improves assessment performance. It also improve a students' and teachers' confidence, self - awareness and enthusiasm for learning and teaching. We also collect feedback from parents. ParentTeachers meetings are conducted periodically. The feedback taken from parents helps us in making suggestions to University for upgradation of curriculum. The suggestion boxes are kept at different places in the campus. The suggestions are collected and analyzed by the committee of our staff member. This mechanism serves as good source of information for curriculum updating.

Teachers can be mentors and mentors can be teachers. Both have an important and necessary place in education. A teacher's first priority may be instruction but they can be creative and interactive in their approach. There are six classes in our college in which the class teacher is nominated by the principal with the help of IQAC coordinator. They are taking the responsibility of catering the needs and requirement of the students. The grievances of the students can be redressed immediately by the principal with the help of other staff members. Every class teacher is mentoring the students progress. The following are the major benefits from mentoring system. Address their needs. Treat them as a colleague. Explain everything they need Ability and willingness to communicate. Approachability, availability, and the ability to listen. Honesty with diplomacy. Compassion and generousness. Helping the students to participate in co curricular activities. Arrange special lectures for their career and competitive exams. It helps the students to develop overall personality .In our college the students counselling and career guidance cell has organized many lectures for their future needs.

2.5.2 - Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Internal assessment is a crucial part of the Evaluation process. IA illustrates aspects of student's progress that are not typically evaluated in external

assessment. In our college total transparency is maintained in the internal assessment. The university guidelines are followed while allotting internal marks. The importance is given for attendance, assignments, and behaviour of the students. A copy of the internal marks is displayed on notice board in every semester. A list of consolidated IA marks is submitted to the University in both hard and soft forms duly signed by HoD, Staff incharge and Principal. Each department maintains a Master Register of IA marks of all the students. The IA marks registers are kept open for inspection by the University Authorities at any time, when they visit our college. Student's participation indifferent events are also considered in the allocation of internal marks. In addition to this we are conducting tutorial classes in which we are giving training to students to prepare notes. The above procedure is directed by the University and mandatorily followed by our college.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Academic calendar provides an opportunity for more thorough examination of subjects, research assignments, and term papers. It increases time spent in each course, making it possible to receive in depth learning and better opportunity for students to rebound. In our college we initially prepared the calendar of events for the academic year with the help of IQAC coordinator. All staff members are involved in the preparation of the calendar and it is consolidated and submitted to each department. Every department adhered to this calendar. Throughout the year the activities of various departments have been conducted. In addition to this we have conducted some extra activities connected with academic matter. We have conducted two internal tests and the semester examination according to the time table of the university. The examinations are conducted strictly according to the guidelines of the university. In this exam we have one internal supervisor and one external supervisor.

#### 7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practice - I "Extempore talk" Goal: Extempore talk is when we are given a topic that we did not know beforehand and must give a talk on it without any preparation. The motto of this practice is to make students to speak in the public with confidence. It brings the courage and instant thoughts among the students. Objectives: To provide students with the practical skills and knowledge necessary to express themselves clearly with confidence and power in a variety of speaking situations. Context: There was a good supportive response from the students in the conduct of Extempore talk. Due to this practice it has helped the students to remain update and also it has made a change in the student's confidence and courage level. The Practice: Every staff conducts this practice in the classroom twice a month on the given topic to each and every student. This has helped the students to be aware of current events. In regard to public speaking we are referring to any limitation that a student may have as a speaker. Whether in a classroom situation students are typically given specific instructions that they must follow. Evidence of Success: This has turned as a healthy practice among students as it prepares them for a better tomorrow. Students have accepted it as it has filled courage and confidence among them to come up and talk on the stage facing a good number of audience. Records are maintained by the respective teachers of every class. Problems Encountered and Resources Required: Every new thing brings curiosity and a bit of hesitation along with it. In the initial stage students were quite hesitant to come forward. Through the motivation they were convinced to take it up and making it mandatory left them with no choice. As this practice is completely cost free and even its implementation is not at all difficult there was no such major problem encountered. Best Practice - II "Ashtanga Yoga" Goal: The practice of Yoga will bring a positive change in attitude of a student. It empowers the overall development of a student physically, mentally and spiritually. It improves memory and attention span. Objectives: It enables the student to maintain good health. It integrates moral values in students. It creates a calm classroom environment. It improves students' listening skills. Context: Once in a week we make students to practice yoga. It makes improvement in core endurance and relieves from stress. It makes to concentrate on their goals. It also helps to maintain good physically and mentally healthy lifestyle. The Practice: The practice of yoga improves overall strength of the student which is an indication of positive attitude. It helps to be more mindful. It boosts brain power. Evidence of Success: Our Physical Education

Director guides the students to practice the yoga. It implied in increasing the strength of the students. It helped us to run classes in smooth and peace manner. Later our sister concern students also joined in this practice. Problems Encountered and Resources Required: No such major problems were encountered. But in the initial stage students faced minor problems like tiredness but later due to the yoga advantages on mental and physical health it generated more interest in the students. It has changed in their behavior in developing positive attitude.
